1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

2. This application is in condition for allowance except for the presence of claims 1-7 to an invention non-elected without traverse. Accordingly, claims 1-7 have been cancelled.

3. In claim 18, line 1, the number "10" has been changed to -- 8 -- in order to correct the dependency thereof since claim 10 was cancelled and incorporated into claim 8 by the applicant in the last response.

4. The following is an examiner's statement of reasons for allowance: The claimed invention is deemed allowable since the prior art fails to teach a belt wherein first and second thermoplastic applied over the elastomeric body both contain openings therein which contrast the layers as recited. The openings are portions that are completely removed that expose a portion of the other layer as defined on page 5, lines 11-19 and page 6, lines 9-13 and lines 26-29 of the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
